Ajithkumar T

Full Stack Developer

About Me

I am a Skilled, Enthusiastic and dedicated Junior MERN Full Stack Developer with a strong foundation in web development technologies. Eager to leverage skills in MongoDB, Express.js, React, and Node.js to contribute to dynamic projects and gain hands-on experience in building responsive and user-friendly web applications.

Project Works

- **Kitchen Recipe Management Web Application**

The Recipe Management System is to Create a Recipe which Acts as a Meal Management Web Application 'Book' that Allows you to Access an Unlimited Number of Recipes, Add your Own Recipes, Share Recipes.

Tools Used

React | NodeJs | MongoDB | ExpressJS | Formik | Cloudinary | Scss | JWT

- **Task Tracker Web Application**

The Task Tracker Web Application is a productivity tool designed to help users organize, track, and manage tasks efficiently. Whether for personal use, team collaboration, or project management, this application provides a user-friendly interface with robust features to enhance productivity and streamline workflow.

Tools Used

React | NodeJs | MongoDB | ExpressJS | Formik | Cloudinary | Scss | Firebase
